WEBSITE/NEWSPAPER

The Agudath Israel Nursery School website is up and running and we need your permission to include your child's picture on the website. Photos are posted from key events during the school year, and names are never included with a child's picture. If you would like to see how pictures are posted, please view the website at www.agudath.org/nursery.html and click on "photos". In addition, photos are occasionally placed in local newspapers to showcase our school. Please complete the form below.
